MISSION TRIP VISION

Bolivia is the poorest country in South America. With its lack of resources, it is hard for pastors to grow their congregations beyond someone's living room. Also, in Bolivian culture, having a church building is important. Consequently, it also makes it hard to play a credible social role without a building. The churches we build are strategic plants that have the potential to win 1000's for Jesus. We build them from the ground up and serve in any way we can to help set-up the new churches for success. We also minister to the children in the surrounding area and schools through VBS programs. Our team will also have the opportunity to preach the Gospel and minister to those in desperate need of love, healing, encouragement and the hope only found in Jesus Christ.
