

What is Think Missions?

Think Missions is a ministry that serves churches of all sizes by helping them become strategic and proactive about missions. We do this in a variety of creative ways that are customized for each local church.

We are available to help churches assess the strengths and weaknesses of their global and local outreach ministries. We work to help discover or refine their missional DNA. We also help create or crystallize a mission strategy through training, coaching, networking, collaborating, and producing a variety of overseas opportunities.

We specialize in 'building bridges' between stateside churches and overseas missions' opportunities that meet the passion and calling of the church. If there is a needy place in the world that the church wants to reach – we can help facilitate the mission.

What we do:

- Church Planting (Our main focus)
- Pastor/Missionary Training Conferences
- Evangelism/Coordinated Outreaches
- Construction Projects
- Missions Workshops/Training

Our Vision:

*To serve and empower the North American Church
to fill the globe with life-giving churches.*

Why Think Missions?

-There are just over 8 billion people in the world today.

-There are 17281 total people groups and 7248 people groups among which there is no indigenous community of believing Christians with adequate numbers and resources to evangelize these people groups. (Source- Joshua Project Website 12/28/23)

-God has called the church to take His message of hope to them. Unfortunately, only approximately 2% of North American Christians have a global vision. Most believers spend their entire lives consumed with their own interests and concerns. Christ's command to 'make disciples of all nations' seems ominous and unattainable. The great need is to get Christians to 'Think Missions'.

Who is Think Missions?

Think Missions was founded in 2008 by Rev. Patrick Summers as an inter-denominational mission's agency that has helped to plant 502 churches around the world. Rev. Duane Goodling joined Think Missions in 2016 and serves as Mission Director. We are a combination of all who support our ministry; from the individual supporter to the business sponsor.
